

GEORGE

Maths Tutor

Education

University of Cambridge: BA Mathematics (2018-2021)

A-levels: Maths A*, Further Maths A*, (AS) Additional Further Maths A, Physics A*, Chemistry A*

Entrance Exams: S in STEP II, 1 in STEP III, 9.0 in TMUA

Teaching Experience

I have tutored for 3 years now, with students ranging in ability from KS3 up to those preparing for entrance tests such as MAT, TMUA and STEP.

Testimonials

“George tutored our daughter through her SAT tests in year 6. He is incredibly polite, punctual and responsible. He considered the right level for her ability and she grew in both confidence and knowledge. We would definitely use his tutoring services again.”

“George was an amazing tutor for my son during his GCSEs. He was so easy to get on with and so friendly. My son really benefited from George coming round, he always went out of his way to really make sure Jay understood and was never in a hurry to leave if Jay needed extra help. I would highly recommend George as a tutor and we will certainly be using him again for A level maths”

Tuition Approach

My belief is that the best way to prepare for exams, particularly entrance exams, is through hands on experience, so in lessons I will focus on working through past questions that I believe are particularly relevant and interesting. I will also help write a revision plan for my students, meaning they can make any preparation they do more productive. I have done every STEP II & III question from 2000-2017 so, in particular, I can help find questions that are “worth doing”. For TMUA I will focus on the “logic and proofs” content which isn’t taught in schools, this is something I felt really benefitted me when I took the exam. For the MAT I will focus on exam technique for the multiple choice questions and how to respond to the longer questions in order to maximize marks whilst being time efficient.
