Teaching Experience & Reviews

Private tutor (5 years):

- Have taught GCSE, A-level and University admissions. I have helped three students in the past two years prepare for an Oxford/Cambridge maths interviews. I'm familiar with hundreds of common maths interview questions and as a recent Oxford maths graduate, I know exactly what the tutors are looking for.

English Language Teacher for a primary school in China (3 months)

Reviews

"Ayaz is an excellent tutor, who is patient with all his students. He is highly intelligent, and his way of teaching is accessible to students of all ages. He puts the time in before and during the lessons to make it really rewarding and fulfilling." - GCSE Maths, Riya B

"I would definitely recommend Ayaz as a tutor. He teaches in a way that makes me want to keep learning. In addition to being engaging, his methods are clear and concise. You can definitely tell that he prepares well for his lessons and ensures they are of top quality. Lastly, Ayaz was very patient throughout the time he tutored me, and I never felt uneasy when asking him questions." - A-level Maths, Zara K

Maths Tuition Approach

For Oxford and Cambridge interview preparation I would hold mock interviews with candidates giving them constant feedback to help them solve tough questions and present their solutions in a clear manner.
